

July 21

SHARON BURNS

In response to your E-mail of the 11th current

1. Remember, we are a democratic country. You can't control us if we decided to send copies of our letter to anybody. You always behave as if you're above everybody in WEKAF. We have been very patient with you although you keep on insulting not only us in WEKAF but the Filipino people as a whole, when every championship in the Philippines, you "always shouted" that "No Filipino Judges and Referees because everything is for sale here in the Philippines".

This time we have to rise and defend against your verbal tirade/ assault as nobody has dared to cushion you when even in several occasions you interfered in US WEKAF internal problem. You have no business telling US members who is right or who is wrong and you can't arrogate that authority unto yourself.

First and foremost, I tell you to shut up and stop "talking" about WEKAF. Effective today, WEKAF Australia and you personally are declared as "NOT in good standing" with WEKAF, primarily because for the past several years you have not paid the Country Annual Affiliation dues and have not remitted the \$5 share of WEKAF HQ from the individual membership dues.

Moreover, you have not submitted any record of membership or any financial statement, at least even for the information of members, where and how their membership dues were spent because not a single cent has ever been remitted to the Philippines. And you should know that dues can be used or spent only for the purposes stated in the WEKAF By-Laws and upon approval by the Board. (We will discuss more of this subject in my subsequent letter after the Doce Pares event on July 21-27, since we're busy at the moment).

2. You have no right to interfere in USA WEKAF internal problem much less the power to declare who is right or wrong since this is subjudice, being an issue with the Courts. How arrogant and pretentious you are as a leader when you don't even have your own school/group neither a single student that you can be proud about. And worst, Australia WEKAF membership has dwindled to a number that can be counted in fingers. You have no moral reason to lead, and to continue being a leader of WEKAF since you can not even claim to have one follower/student.

You are there, we know because of money and this is what we want the members to demand for full accounting of funds that were paid to you. We will see it that this will be pursued if to clear matters up and to let people know who really you are.

3. You cannot tell us or dictate to us what system to use in the Championship. What power do you have to order us to pay and buy a particular system? Why, do you have pecuniary interest on this? You always speak money in the Philippines but you don't mention about monies you collect from your members, portions of which are due for the World Headquarters and which remain unremitted. (We will take this up in subsequent letters). You better start checking your records as some of your members may go to the court for clarification/explanation and may possibly end up in a misappropriation or embezzlement issue.
4. I encourage you to meet with the Securities Exchange Commission so you will see clearly the entire set up of WEKAF. And I will be very happy if you get an International Lawyer, anyway perhaps you have enough money to pay, with all the membership dues and Annual Affiliation fees that have not paid to the World Headquarters. You give us an idea about this and its possible we take the necessary steps so you have a venue to explain if you ever set foot in the Philippines again.

I'll be writing more about this subject later since we are busy at the moment because of the Doce Pares World Congress on July 21-27.

Meanwhile, I urge all WEKAF members to seek a reorganization of WEKAF AUSTRALIA in order to regain its status as a member in good standing and for it to grow and progress as in other member countries.

Expecting to hear more from you....

D.A. Canete
